

COMPOSITE Fascia Board 2.4m

Cladco Composite Fascia Boards are a two-sided Composite Board manufactured to protect the ends of your Decking project while also concealing any Joists and joins. As well as helping prevent any debris or animals enter the underside of your Decking.

Cladco Composite Fascia Boards are manufactured with 60% FSC accredited wood fibres and 40% recycled plastic. Cladco Composite Fascia Boards have an attractive woodgrain effect on one side and a grooved look on the other.

Fascia Boards are particularly great when installing a raised Decking area and can be used behind steps, around the edges, and on the sides of most Decking projects. Fascia Boards can also be used for various DIY projects, such as covering Soffits.

Fascia Boards are available in eight matching colours to Cladco Composite Decking Boards, in an attractive woodgrain effect, which can contrast or compliment your Composite Decking. Cladco Composite Fascia Boards are low-maintenance, versatile, durable and UV resistant product, which is easy to install.
